Time Systems International's TSI-7500 is a simple to use yet powerful time and attendance solution that allows you to automate your company's timekeeping and attendance tracking. TSI-7500 completely eliminates paper timesheets, which are the root of most payroll nightmares! TSI-7500 gives companies an easy way to automate their workforce management processes. Accessible from any computer with Internet access, TSI-7500 provides the tools to help Supervisors and Management know exactly how their payroll dollars are being spent and where labor resources are being utilized.

TSI-7500 provides a user-friendly self service point for your workforce. Employees can do things such as clock in and out, review schedules, transfer labor hours, submit time sheets, check benefit accruals, and submit time off requests – all from the convenience of the Internet. Labor data is immediately stored in TSI-7500's database where it is available to managers on a real-time basis.

The TSI-7500's powerful reporting system provides you with the tools to better manage your labor force. TSI-7500's reports help you avoid unauthorized overtime, track

### Available in both Hosted & Licensed Models

employee status, track benefit administration, control departmental costs, monitor staffing, perform job costing, and much more.

The standard, automated time clock polling and report generation capability allows you to define a processing schedule. TSI-7500 will poll the time clocks, process reports and even email them to supervisors automatically without operator intervention.

Eliminate Payday Panic! Know exactly where your employee's time and dollars are spent by implementing *your* rounding rules, not your employee's. By removing human error, accurately reporting employee hours and dramatically reducing the amount of time spent on payroll preparation, TSI-7500 will pay for itself in less than one year!

## Features

**Payroll Automation:** Uniformly and comprehensively applies an unlimited number of pay policies and shifts to time and attendance data.

**Ease of Use:** TSI-7500 is completely browser driven. For ease of operation, the system allows each user to arrange the information in an order that is convenient for them. Color-coded notations with icons on the electronic timecard easily identify exceptions.

**Strategic Reporting:** There are over 75 reports available, which can be run by pay period or by any selected date range. Reports can be displayed on screen, printed, emailed, or sent to a data file.

**Customize:** TSI-7500 offers administrators the ability to change the names of key fields within the menu and reporting system. In addition, TSI-7500 allows users to define unlimited system fields in the employee master record.

**HR Functions:** Tracks employee attendance, employee tardiness, department transfers, job transfers, schedules, automates employee time and wage calculations.

**Imports/Exports:** TSI-7500 comes standard with an import/export feature that allows users bring data into the system and export data out to a third party payroll system or other software packages.

**Approvals:** 3 levels of approvals by employee, supervisor and administrator.

**Security:** Unlimited security levels definable down to add/edit/delete/view rights per feature. Filters allow supervisors

to access only their respective employees. TSI-7500 allows the temporary assignment of employee groups to alternate supervisors.

**Autoprocess:** Allows users to set a specific date/time to poll the information from the data collection devices, as well as run reports and print or email them directly to supervisors.

**Benefit Accruals:** Allows you to define benefit accrual calculations that automatically update your employee's accrual balances.

**Employee Messaging:** TSI-7500 allows you to send messages to employees from your PC by employee, group, department or the entire company.

**Employee Time Off Request:** Employees can request time off within the system which is automatically routed to their manager for approval.

**Quick Scheduler:** This scheduling tool makes quick work of scheduling by day, or week on an individual or group basis via schedule templates.

**Time Entry Options:** TSI-7500 supports standard web entry, data collection terminals, Biometric terminals and Telephony.

**Easy of Deployment:** Whether you prefer a licensed or hosted solution, TSI-7500 offers you the flexibility to automate your labor management processes with speed and accuracy.
